

ALAS 900

Thermal protection, Fiber-glass cloth HT treated, with Aluminium-PET foil and PU-white reverse side

Temperature range - 50° C up to + 850° C.

Rolls : 50 or 100Mts. Spécifique forms on order.

Material : Fiber-glass and HT traitement

Coating : Aluminium-PET foil, reverse side Pu-white HT treated

Construction : NC

Closing Systems : BP, V

Color : Silver

Wall thickness : 0.8 mm DIN ISO 4603 / E

Base weight : 650g/m² DIN 53854

Finished coated weight : 840g/m² DIN 53854

Thread count / cm² : 7 x 6 DIN 53853

Dimensions : NC

Diameter mm : > 9 mm

Inside diameter mm : NC

Water Resistant : NC

Flame Resistant : NC

Temperature range Mini

maximum : continuous / short - 50°C + 650 C° / + 850°C
time :

Temperature range continuous

maximum : 30 mn / 15 mn / 1 NC
