

HIPROTAPE

Very high temperature and fire resistance. Can be used to protect any kind of cabling or for hydraulic and pneumatic pipe insulation. Hiprotape offers high temperature protection and the outer cover offers excellent resistance to most industrial chemicals and hydraulic oils and are used in glass-, steel-, ceramics industry, steelworks, furnishing, machine- and apparatus-industry. Temperature range : - 60° C up to + 1640° C (max 30 S).
Rolls : 15 Mts

TEST FEATURES	UNIT	VALUE
Inner material		Glass-fiber cloth
Outer material		Silicon
Continuous temperature range	°C	-55 ; +260
Temperature at 1 090°C	Minute	20
Temperature at 1 640°C	Seconds	15-30
Thickness	mm	3
Color		Red
Halogen-free		Yes
Flame retardant		Yes
Oil resistance		Yes

AVAILABLE WIDTH (mm)

25	102
51	127
76
